WAR IN BALKANS WILL PROCEED

**Allies Break Peace Negotiations
With Turkey.**

WOUNDED COME FROM FRONT

Rumored That Fighting Has Already Begun Along the Tchatalja Lines. Allies Are of Opinion Adrianople Will Soon Be Taken—Bulgaria Orders Termination of Armistice.

+++++
Vienna, Jan. 30.—A dispatch from Sofia says:
"In accordance with the decision of the government army headquarters have been ordered to terminate the armistice."
+++++

London, Jan. 30.—Notwithstanding the Balkan allies' action in breaking the peace negotiations with Turkey there still are optimists in the diplomatic world who hope a resumption of the war may be averted, either through fresh proposals that Turkey is reported to be including in the note she will deliver to the powers or through the fall of Adrianople before activities can be begun again at the Tchatalja lines.

A majority of the Balkan delegates refuse to admit the likelihood of either contingency, believing that the life of the Young Turk government depends upon the resumption of the war, even though the allies were willing to postpone the conflict.

They are of the opinion that the present failure of diplomacy is, at the worst, only an interlude, however, for they will leave four representatives in London to undertake the settlement anew.

Rehad Pasha, after receiving the note, said:

"The consequences may be of the gravest nature. The responsibility lies not alone with the allies, but with the powers who encouraged the Balkan states and have shown no fairness toward Turkey, although before the war they had solemnly proclaimed the principle of the unchangeability of the status quo."

Intend Storming Adrianople.

The plan of the allied governments, so far as the plenipotentiaries are informed, is to concentrate their forces on Adrianople immediately after the expiration of the prescribed four days, if the surrender of that fortress does not occur in the meantime.

The Balkan representatives declare that all reports that Rumania would aid Bulgaria against Turkey are unfounded and they add that if Rumania should take advantage of the opportunity to gain her territorial claims by force, while the Bulgarian army is engaged with Turkey, Bulgaria would let her occupy the territory she demands. But as soon as the Bulgarian army disposes of the Turks the Bulgars would turn their attention to the Rumanians and attempt to make them pay dearly for this racial disloyalty, which the Bulgarians consider would be treason.

The allies expect that a preliminary treaty of peace will be signed in Adrianople by the Bulgarian and Serbian generals, if they are victorious, and this will be embodied in the treaty which will be concluded in London, for which each delegation is leaving one representative.

Most of the other delegates will leave here before Monday. The Greek premier, Eleutherios Venizelos, will visit Vienna, Belgrade, Sofia and Saloniki on his homeward journey and this is considered tangible proof that the allies are preserving that unity that astonished Europe at the beginning of the war.

FIGHTING MAY HAVE BEGUN

Wounded Men Constantly Arriving at Constantinople.

London, Jan. 30.—A Constantinople dispatch by way of Constantia to the Post says it is evident that something is happening at Tchatalja, as wounded men are constantly arriving from there.

Unconfirmed reports say that 15,000 Circassian troops have mutinied and rioting also is reported among the troops at the Dardanelles.

Senator Nelson Spent \$2,098.45.

Washington, Jan. 30.—Senator Nelson's report of the expense he incurred in his re-election to the senate was filed with the secretary of the senate. It shows that the total cost of the campaign was \$2,098.45. Of this \$140 was spent before the primary election, \$1,402.50 before the election in November and \$555.75 after the election.

Will Open Navigation.

St. Louis, Jan. 30.—Steamboat traffic on the Mississippi river will be resumed Saturday, the earliest in twenty years. The steamer Georgia Lee of the Lee line will depart Saturday for Memphis. Usually the river is opened for navigation late in March or early in April.

DEMOCRATS NOW CONTROL SENATE

**Will Have Majority of Two in
Next Body.**

CHANCE TO INCREASE LEAD

Contests Still Exist in the Legislatures of New Hampshire, West Virginia and Illinois, a Total of Four More Senators to Be Chosen—Eighteen Democrats Will Take Oath on March 4.

Washington, Jan. 30.—With the election of Willard Saulsbury as United States senator from Delaware the Democratic strength in the next senate swing from the precarious figure of forty-eight, or exactly one-half of the senate, to the safer total of forty-nine, a majority of two.

Mr. Saulsbury's election, added to the victory recently obtained in Tennessee, assures the Democratic party absolute control. The vote of Vice President Marshall would have been the deciding factor in any event, but party leaders believe now they have a safe margin for tariff and legislative action.

Contests still exist in the legislatures of New Hampshire, West Virginia and Illinois, with a total of four senators to be elected, about whose political affiliations doubt exists. A victory in any one of these states would so materially strengthen the Democratic party that the senate would be completely removed from the element of uncertainty.

Progressive Attitude Unknown.

The attitude of the Progressives and the progressive Republicans upon the tariff matters is as yet unknown, but the margin of strength promised to the Democrats makes it unnecessary, it is believed, to count upon any combination with the Progressives.

Of the entire membership of ninety-six senators sixty-three will hold over beyond March 4. Of these thirty-two are Republicans and thirty-two Democrats. The terms of thirty-two senators will expire in March and there is, in addition, one vacancy in Illinois. Thus far seventeen Democratic senators have been elected and the election of Senator Bacon in Georgia is certain, making eighteen Democrats to take the oath of office March 4. The opposition forces, including both Republicans and Progressives, have elected eleven new senators.

The senate after March 4 will stand as follows, if the deadlocks are not broken in Illinois, New Hampshire and West Virginia:
Democrats, 49; Republicans and Progressives, 43; vacancies, 4.

OLD SOLDIERS POORLY FED

Senate Committee Recommends Improving Conditions.

Washington, Jan. 30.—The comfort and happiness of our former soldiers should not be sacrificed and their years shortened in order that a few dollars may be saved to the nation's treasury. While economy is commendable it should not be obtained at the sacrifice of the comfort and happiness of the nation's preservers.

This declaration was contained in a report made to the senate by the special committee which investigated conditions at the Pacific branch of the national home for disabled volunteer soldiers at Santa Monica, Cal.

The committee reported the veterans were poorly fed and that their housing conditions could be greatly improved. It recommended "more liberal appropriations for food and better facilities for cooking."

REPUBLICANS LOSE FIGHT

By Tie Vote Senate Refuses to Go Into Executive Session.

Washington, Jan. 30.—By a tie vote the Republicans of the senate lost their effort to force another executive session to consider President Taft's appointments.

Democratic leaders forced a roll call and with the aid of Senator Brewster and Senator La Follette, Republicans, and Senator Poindexter, Progressive, prevented the senate from resuming the fight.

SAY RAILWAYS ARE LOSERS

Witnesses at Postal Hearings Complain of Parcel Law.

Washington, Jan. 30.—Ralph Peters, president of the Long Island railway, told the joint congressional committee investigating railway mail compensation that New England railways were heavy losers on their railway mail service.

W. W. Baldwin, vice president of the Burlington railroad, declared that with the growth of the parcels post railroads would lose 75 per cent in the revenues from express companies. The committee adjourned to Feb. 7.

TOLD TO PREPARE FOR WAR

Bulgarian Commander Exhorts Army to Fresh Victories.

Sofia, Bulgaria, Jan. 30.—General Savoff, commander-in-chief of the Bulgarian army, addressed the following communication to the men under his command.

"From the course taken by the peace negotiations it becomes evident that the enemy is unwilling to yield an inch of the territory conquered by our victorious arms.

"The Turks wish, by a stroke of the pen, to destroy all that you and your brave brothers who have fallen in battle have won.

"Will the heroes of Kirk-Kilesseh, Bunarhisar, Lule-Burgas and Tchatalja allow this affront to the glorious army of Bulgaria to go unanswered?

"Prepare then for fresh victories and with your irresistible movement forward show the enemies and the whole world that Bulgaria, our fatherland, deserves more respect."

WOMEN CONTINUE WINDOW SMASHING

**Also Mail Parcels Which on
Opening Take Fire.**

London, Jan. 30.—The suffragettes resumed their window breaking and post box outrages on a small scale, but their endeavors were sufficient to maintain a state of nervous apprehension among the shopkeepers and police and private watchmen guarding the streets and buildings.

The windows in some of the government offices and in the offices of the Hamburg-American Packet company were broken. A few arrests were made.

Mrs. Despard, a leader of the militant suffragettes, who was sentenced to fourteen days' imprisonment on the charge of resisting the police, was released, some unidentified person paying her fine of \$10. Mrs. Despard, who is a sister of General Sir John French, had refused to accept the payment offered by the magistrate of paying a fine and was sent to jail.

On being notified of her release she said:
"Whoever paid that fine was no friend of mine. But I am going out to fight again."

Many packages have been found in the various postoffices, which on being opened burst into flames. Some of them were addressed to Premier Asquith and Chancellor Lloyd-George.

TARIFF NOW PROHIBITIVE

Committee Will Reduce Rates on Boots and Shoes.

Washington, Jan. 30.—An unsuccessful fight to have the house committee on ways and means retain the present tariff of 10 and 15 per cent ad valorem on boots and shoes occupied most of the session. Chairman Underwood of the committee told the representatives of the wholesale and retail shoe industries that the tariff is now prohibitive; that there is no revenue and that retention of the present rates is impossible. Questions of the committee indicated a sentiment favorable to a big drop in those rates.

Numerous spokesmen appeared for the branches of the shoe business, national associations of the manufacturers, wholesalers and retailers, and of the labor unions, all favoring the present duties.

NORWEGIAN CABINET NAMED

Gunnar Knudsen Heads Ministry to Succeed One That Resigned.

Christiania, Jan. 30.—The new cabinet to replace that which resigned Jan. 24 is as follows:
Premier and minister of agriculture, Gunnar Knudsen; commerce, M. Kastberg; finance, M. Omholt; justice, M. Amherhammen; foreign affairs, M. Hagen; national defense, General Tørring; labor, M. Urby, and public works, M. Briggessau.

WILSON AGAINST SOCIAL AFFAIRS

Curtailment of Capital Functions Expected.

ABSENCE OF BALL POPULAR

President Elect's Attitude Toward Inaugural Event Is Taken to Show His Probable Future Action on All Social Life of Administration—To Give It Business Character.

By ARTHUR W. DUNN.

Washington, Jan. 31.—[Special.]—It is believed by those who know Woodrow Wilson quite well that the elimination of the inaugural ball is but the beginning of a determination on his part to reduce the social features of the national government and to give it more of a business character. Society has cut a wide swath during several administrations, particularly under Roosevelt and Taft. Social doings with a White House flavor have been in vogue to a very large extent.

Of course it has already been shown that outside of a comparatively few persons the elimination of the inaugural ball is popular throughout the country. The sturdy common people do not care about such "highfalutin fix-in's," while the opponents of the "turkey trot" must feel that they have gained a point.

Why Not Franking Privilege?

Governor Wilson has been spending large sums of money since he was elected for postage upon purely public business. This is a very great tax upon a man of limited means. Why hasn't congress granted him the franking privilege? Surely the business which engages his attention and for which he pays postage is more of a public nature than that of ex-presidents and the widows of ex-presidents, and yet they are given free use of the mails under frank.

Located Hitchcock.

"That explains where Hitchcock has been," exclaimed a member of congress. He held up and read a cable saying that Postmaster General Hitchcock and his assistants were being shown in moving pictures abroad. "Time after time," continued the member, "I have been down to the post office department, but never could I see Hitchcock, but now I see by this statement that he has been posing for the 'movies.' Well, you can't expect too much of a government official."

Valuable Information.

There was a lot of valuable information brought out in the debates on the army appropriation bill in the house, but it is doubtful if many people will get time to read it. I have heard of men who read every word of the Congressional Record every day, but there cannot be so very many of them.

The principal facts brought out were that for the amount of money which the government pays for the army the best results are not obtained on account of lack of centralization in large posts, where better organization and training can be had, and also that so far the reserves are not promising because no provision has been made for paying the men who go into the reserve force. It is also doubtful whether the seven year enlistment will prove satisfactory.

Heflin's Humor.

There is danger that Tom Heflin of Alabama will be called the humorist of the house. That will not be a very severe arraignment in a house so devoid of humor as the Sixty-second congress, but he almost merits the title sometimes. Not long ago a bill was introduced for some sort of a negro industrial exposition in a southern state. It went to the appropriations committee, but Fitzgerald came lunging it back into the house with a request that it be referred to the committee on industrial arts and exhibitions, of which Heflin is chairman. And there is where Heflin's humor came forth.

He had a suspicion of the appropriations committee whenever they gave anything back. It was like "Greeks bearing gifts." He told a number of interesting "unloading" stories to illustrate the point, showing clearly that if the bill had been worth anything Fitzgerald would have held on to it. And the house enjoyed the whole performance.

Vinegar For Army Animals.

During the consideration of the army bill Congressman Willis of Ohio called attention to the provision for "forage, salt and vinegar for horses, mules and oxen." He said he knew something about these animals, but it was the first time it ever occurred to him that vinegar was a proper diet for them.

Mr. Kahn of California explained that vinegar was used to clean the troughs out of which the animals fed. And thus the house gained information it had not possessed before.

Tillman on the Gain.

Many persons have noticed the great physical improvement in Senator Tillman lately. Said a friend to him: "I can account for that, senator. That fight you are having with Governor Bleasie has put new life and vigor into you. That is what you need. You have been leading too much of an indolent life lately."

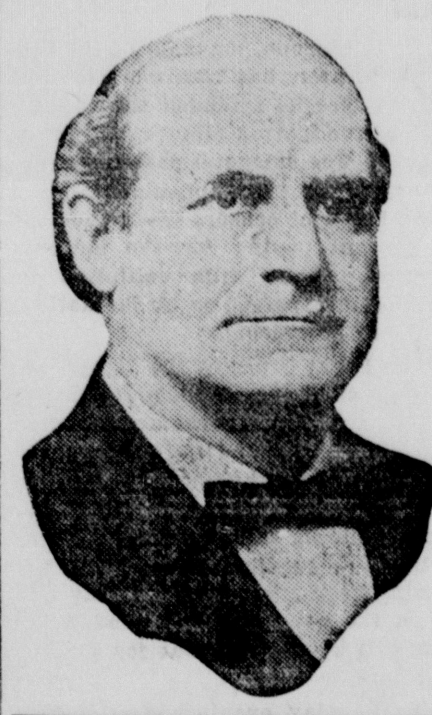

"Perhaps I thrive best when I have a row on my hands," acknowledged the South Carolina senator.

Old Man Time.

"Speaking of the dead languages, professor," inquired a new student, "who killed them?"—Judge.

Persistently Reported He Will Be Secretary of State.

SAYS BRYAN HAS ACCEPTED

Florida Paper Announces He Will Be Secretary of State.

Miami, Fla., Jan. 30.—The Miami Herald prints the statement that William Jennings Bryan has accepted of President Elect Wilson's offer of the position of secretary of state.

CHICAGO DEMOCRAT BECOMES SPEAKER

Long Deadlock in Illinois Legislature Is Broken.

Springfield, Ill., Jan. 30.—William C. McKinley, Democrat, of Chicago, was elected speaker of the house of representatives of the forty-eighth general assembly.

Since Jan. 8 the house members have been deadlocked, preventing the induction into office of the newly elected Democratic administration and balloting on the United States senatorship, dates for two events specifically set by the state constitution.

Mr. McKinley's victory was brought about by a combination of Democratic and Republican votes, with one Progressive breaking the ties of party caucus and casting his vote with the winning combination. Eighty-three votes were cast for him on the seventh and final ballot. Thirty-six Democrats, forty-six Republicans and one Progressive made up the list.

WANT HOLIDAY ON MARCH 3

Suffragists Call on Taft to Let Government Clerks Off.

Washington, Jan. 30.—Woman suffrage leaders braved raw winds and a whirling snow flurry to hold a street meeting to call upon President Taft to grant a holiday on March 3 to government clerks who want to participate in the suffragist parade.

Chairman Black of the civil service commission has ruled that the marchers will not be held guilty of "pernicious political activity."

The committee in charge of the regular inaugural procession March 4 has held out the olive branch to the suffragists by announcing they might participate in the big parade if they will ask for the opportunity. The women's leaders scorn the suggestion and will confine their marchers to their own parade on March 3.

BITTER FIGHT IS PROBABLE

Minnesota House Committee Acts on Contest.

St. Paul, Jan. 30.—After four hours of stormy debate the house elections committee considering the Coates-Gilman contest, by a vote of 11 to 7 recommended that Joseph H. Coates of Sauk Center retain his seat in the legislature from the Forty-seventh district.

It is practically certain that the seven members who favored C. A. Gilman of St. Cloud, former lieutenant governor of Minnesota, will submit a minority report. The contest then will go to the floor of the house, where it is promised a bitter fight will be made.

Forfeiture of charters and exclusion from state, heavy fines, imprisonment of officers, cancellation of debts due from patrons, liability for threefold damages, are some of the penalties proposed in an "anti-combination" bill introduced by H. H. Dunn, former speaker.

The Bendix bill to compel railroads in Minnesota to reduce their fares to 2 cents per mile passed the house transportation committee by unanimous vote.

DEAD LETTERS BRING \$10,861

Three-Carat Diamond Goes for \$350 at Annual Sale.

Washington, Jan. 30.—The United States is \$10,861 richer through the carelessness of people who neglected to place return addresses on mail. The annual dead letter sale netted that sum.

An unmounted diamond of more than three carats went for \$350.

TAFT ATTACKS FILIPINO BILL

SUFFRAGISTS, NOT GYPSIES

General Rosalie Jones and Army Go Into Camp.

New York, Jan. 30.—The appearance of a group of tents resembling a gypsy camp on the midwinter lawns of Central park was explained when members of the suffragette band that is to march to Washington next month disclosed that they had encamped by way of getting preliminary experience before the votes for women tramp is begun.

General Rosalie Jones, commander-in-chief of the suffrage army that marched to Albany in December with a message to Governor Sulzer, led ten women and one man, the latter the commissary department, into Central park and tents were pitched for the women's occupancy under the yellow banner that waves for "the cause."

SEERS PAID ONLY FOR TIME

Chicago Court Rules Fees Are Not for Purported Information.

Chicago, Jan. 30.—Fortune tellers, clairvoyants, spiritualists and others claiming to be able to furnish the public with news of the other world, recover lost valuables and locate hidden gold, are paid for their time and not for the information they may give. This was the opinion of the Illinois supreme court recently in an opinion rendered in a case taken up from Chicago, involving the constitutionality of an act declaring such businesses unlawful.

The case was cited in Municipal Judge Mahoney's court on behalf of Hyman Leibowitz, a palmist and medium. The prisoner's dismissal was ordered.

LICKED TOO MANY ORANGES

Chicago Health Inspector Made Ill by His Duties.

Chicago, Jan. 30.—Because he has had to "lick" so many sliced oranges recently to determine whether the cars of the fruit arriving in Chicago from California should be held because the oranges came from frost bitten groves James McCarthy, inspector for the health department, is ill at his home. He does not know when he will be able to resume his duties.

House for Lincoln Memorial.

Washington, Jan. 30.—The house adopted the joint resolution approving plans of the fine arts commission for a \$2,000,000 memorial in this city in memory of Abraham Lincoln. The resolution already had passed the senate. It passed the house without amendment. Plans of the fine arts commission call for the erection of a monument in Potomac park, just south of the White House.

Senate Passes Page Bill.

Washington, Jan. 30.—The Page vocational education bill, authorizing maximum appropriations of more than \$14,000,000 for agricultural and trade educational work, was adopted by the senate after a fight extending several days, as a substitute for the Lever-Smith bill, which has passed the house. The vote was 31 to 30. The measure will go to the house and ultimately into a conference committee.

President Opposes Independence of Philippines.

SPEAKS BEFORE OHIO SOCIETY

Chief Executive Asks if It Is Possible the Democratic Party Is Going to Reverse the Policy That He Declares Has Vindicated Itself by Ten Years' Experience.

Washington, Jan. 30.—President Taft, in his farewell speech to the Ohio society of Washington, vigorously attacked the bill pending in congress proposing autonomy and independence in eight years for the Philippines.

"Is it possible," asked the president, "that the Democratic party is going to reverse the policy that has vindicated itself by ten years' experience merely for the purpose of conforming to the cobwebbed planks of forgotten platforms? Will they not, before they take such an irrevocable step, obtain reliable information as to the conditions that obtain in the islands?"

"This issue has been relegated to the limbo of free silver or the narrow doctrine of state's rights. Those who continue to give out their lugubrious information as to the conditions that obtain in the islands?"

Speaker Clark, who followed the president, declined to debate with him the Democratic policy of independence for the Philippines.

"I am not going to debate the question of Philippine independence with President Taft," said Mr. Clark. "I wish we were out of there as good shape as we were when we got in. But, according to the Democratic platform—which I didn't make—we are committed to a policy. I believe that when a man gets office on a platform he should religiously live up to the planks that are in that platform."

Senators Burton and Pomerene and Representative Cannon also made addresses. Justice Day of the supreme court was toastmaster and Justices McKenna, Lurton and Lamar were among the guests at the speakers' table.

FALLS EIGHTEEN STORIES

New York Attorney Loses Balance While Sitting in Window.

New York, Jan. 30.—Morris H. Beall, a lawyer, sat on the window sill of his office, glanced down eighteen stories to the roof of the skyscraper boiler house below. A moment later he was swaying uncertainly on his narrow seat. Then he somersaulted down. A young woman at a telephone switchboard near a window saw him fall. She called up police headquarters and told them of the tragedy.

From papers in his office it was learned that he was a native of Omaha, had been a member of the class of '94 at Yale and was once managing clerk of the law firm of Carter, Hughes & Dwight, of which Supreme Court Justice Hughes was a member.

BOY CONVICT SLAYS ANOTHER

Missouri Training School Inmate Pleads Guilty to Murder.

Boonville, Mo., Jan. 30.—Albert Merk, sixteen years old, of St. Louis, an inmate of the Missouri training school here, pleaded guilty to murder in the second degree when arraigned on the charge of killing Dale Flora of Kansas City, also an inmate of the school, and was sentenced to twelve years in the penitentiary.

Merk killed Flora with a baseball bat on Labor day during a quarrel over a game.

WILSON ENDS CONFERENCES

Prominent Democrats to Cease Their Visit to Trenton.

Trenton, N. J., Jan. 30.—President Elect Wilson announced that his conferences with prominent Democrats generally about "men and policies," which have been in progress ever since he returned from Bermuda, are now at an end. Until March 4 he will devote practically his entire time to his duties as governor of New Jersey.

The governor's statement prompted the inquiry as

On Tuesday evening about thirty
young people gathered at the home of
Miss Clara Elinger for a sleigh ride.
after driving around for a couple of
hours, they stopped at the home of
Miss Martha Hohnsey. Music and
games were indulged in. Arthur O.
Elinger sang several solos in a most
pleasing manner. A very delicious
luncheon was served at midnight,
after which all returned to their
homes deeming Miss Hohnsey a royal
entertainer.

A joke is being told on Jay Henry
Long. His summons and complaint
in a certain case was answered by
an attorney from an outside town
and the latter could not decipher Mr.
Long's signature, so he cut the name
off the complaint and pasted it on
the envelope containing his answer.
It was easily read by the local post-
office clerks who have a reputation of
being able to read any kind of chir-
ography and the letter was promptly
delivered to Mr. Long.

SUNDAY GROUNDHOG DAY
Woodchuck is the Original Ground-
hog, and Latter Half of Winter
is Timed by its Appearance
February 2d is groundhog day and
brings to mind the question, "What
is a groundhog?" The answer that
groundhog is but another name for
the common or garden woodchuck
will enlighten many.
Groundhog day is said to have had
its origin in the early centuries and
to have been brought to this country
by immigrants from northern Europe,
who timed the latter half of the
winter by the appearance of the mar-
mots from its hibernation. The time
set for the animal's appearance was
40 days following Christmas.
The woodchuck is quite plentiful
in this part of the country. The ad-
vance of civilization has failed to
drive the animals out. They burrow
into the farmer's fields and, in many
places, build "settlements" similar
to those of the prairie dogs.

**BEWARE! WARNS

Dr. Hyslop Told to Avoid Evil

**Late Professor Talks Through Fifteen-
year-old Boy—Tells of Poltergeist.
Harvard University Accepts \$10,000
Fund to Study Psychological Phenomena.
Spiritualists Highly Pleased.**

There were much head nodding and
exchanging of "I told you so's" among
spiritualists and others devoted to psy-
chical research recently over the an-
nouncement of Dr. James P. Hyslop of
the American Society for Psychical
Research that he had again been in
communication with the spirit of Wil-
liam James, late professor of philoso-
phy at Harvard.

In an article published in the journal
of the society, just out, Dr. Hyslop
gives details of his latest conversations
with his friend in spirit land. He
writes that the communication was
conducted through the medium of a
fifteen-year-old boy, the son of a cler-
gyman, "well known on both sides of
the Atlantic." While entranced this
boy has been telling the Psychical Re-
search society man that a "poltergeist"
will leave razor blades and matches in
places where they may do harm and
that an evil shade which lurks in the
dark and hurls inkstands and bea-
stones at the heads of true believers
should be watched out for. The au-
thority for the warnings in every case
has been the spirit of Professor James,
according to the boy. Shortly after the
death of the Harvard philosophy pro-
fessor Dr. Hyslop announced that he
had been communicating with him
through the mediums Mrs. Chenoweth
and Mrs. Piper.

Dr. Hyslop began his experiments
with the boy on Nov. 20, 1911. He
called at the home of the boy's father,
whom he calls "the Rev. Dr. X," and
learned that Professor James had been
endeavoring to speak through Dr. X's
son. The next day the experiments
were resumed, and there were some
rather remarkable and alarming doings.

Spirits' Queer Actions.
There was violent table tipping and
levitation in which the table rose two
feet from the floor. Then an attempt
was made for the "translation of ob-
jects"—that is, to see whether the spir-
its would move objects from one room
to another.

"Doors were closed again and the
lights turned out," Dr. Hyslop report-
ed. "In a few moments something fell,
sounding like two objects. Up went
the lights and within a few feet of
each other were two pairs of scissors
which belonged in another room. The
next were a nail cleaner and the boy's
knife, both from the room upstairs."
"Then a drinking cup struck the boy
on the head and seemed to have hurt
him. Next a skate key from upstairs;
then a dozen marbles from rooms two
flights up. A pipe stem was thrown
across the room from a table in the
corner. Then a fountain pen from the
library table where we were."

"Presently razor blades were thrown
into the room, the electric light bulbs
were smashed with a violently thrown
stone and a book was hurled against
the boy's head. At a similar seance
later on a man complained that his
pocket had been picked. A spirit had
abstracted a 25 cent piece."
"Dr. X," says Professor Hyslop,
"asked Professor James to spell out
the name of the man who had induc-
ed both of them, and first Balza

**CLEANS THE HAIR AND MAKES IT LOOK
BEAUTIFUL AT ONCE--25 CENT "DANDERINE"**

**In a Few Moments Your Hair Looks Soft, Fluffy, Lustrous and Abundant
—No Falling Hair or Dandruff**

Surely try a "Danderine Hair
Cleanse" if you wish to immediately
double the beauty of your hair. Just
moisten a cloth with Danderine and
draw it carefully through your hair,
taking one small strand at a time,
this will cleanse the hair of dust,
dirt or any excessive oil.—In a few
moments you will be amazed. Your
hair will be wavy, fluffy and abun-
dant and possess an incomparable
softness, lustre and luxuriance, the
beauty and shimmer of true hair
health.

Besides beautifying the hair, one
application of Danderine dissolves
every particle of Dandruff, cleanses,

municator, asking him if he had ever

these replies were correct."

Harvard Accepts Study.
According to the journal of the so-
ciety, Harvard university has accept-
ed a \$10,000 endowment fund for
psychical research. In the announce-
ment it is stated that this is the first
official recognition of such study ac-
corded by any American university.

The fund, which was established by
several individuals, is a memorial of
the life and work of Dr. Richard
Hodgson, secretary of the society from
1887 until his death in 1905.

The journal in the current issue by
way of comment says:
"The value of it lies chiefly in the
fact of this recognition, as the fund is
not large enough to do all the work
that must be done in this field. Be-
sides, no one can any longer question
the respectability of the work. The
objection which an uninformed public
has always raised—namely, that the
colleges and universities have not ad-
mitted the work into their purview
point, cannot be presented any longer.

"The acceptance of the fund makes
it impossible for any other institution
in this country to disregard or to dis-
respect the work. It has won its place
in so conservative a university as Har-
vard—conservative in all the problems
that affect long despised phenomena.
It is in every way a most welcome sit-
uation, and we have to thank the con-
tributors for the course which thus
commits one of the best universities in
this country to the study of the im-
portance of such phenomena."

**WHEN A LAXATIVE IS
NEEDED—"CASCARETS"**

**Salts, Calomel and Cathartic Pills
Are Violent—They Act on Bowels
as Pepper Acts in Nostrils**

Take a Cascaret tonight and thor-
oughly cleanse your liver, stomach
and bowels, and you will surely feel
great by morning. You men and
women who have headache, coated
tongue, can't sleep, are bilious, ner-
vous and upset, bothered with a sick,
gassy, disordered stomach, or have
backache and feel all worn out.

Are you keeping your bowels clean
with Cascarets—or merely forcing a
passageway every few days with
salts, cathartic pills or castor oil?
This is important.

Cascarets immediately cleanse and
regulate the stomach, remove the
sour, undigested and fermenting food
and foul gases; take the excess bile
from the liver and carry off the con-
stipated waste matter and poison
from the intestines and bowels.

Remember, a Cascaret tonight will
straighten you out by morning. A
10-cent box from your druggist means
healthy bowel action; a clear head
and cheerfulness for months. Don't
forget the children. Adv.

PROTEST AGAINST TONNAGE TAX BILL

Large Delegation from Brainerd, Deerwood, Crosby and Other Range Points

TO ATTEND HEARING, JAN'Y 31

Natural for Every Citizen of Northern Minnesota to Protect Himself and Community

Great interest has been shown in the proposed tonnage tax bill, and indignation is heard in all quarters. A united effort has been made to gather a large delegation to attend the Friday night meeting at the capitol in St. Paul, at which time and place the Cuyuna range delegation will have a special hearing before the tax committee of the house.

The following will attend the meeting, leaving Brainerd Friday noon, but some will go via Duluth: J. M. Elder, Con O'Brien, G. D. LaBar, M. T. Dunn, D. C. Peacock, R. J. Hartley, Carl Zapffe, R. R. Wise, Wm. Wood, P. W. Donovan, A. D. Polk, W. H. Cleary, F. H. Gruenhagen, W. D. McKay, C. E. Peabody, E. C. Bane, F. A. Glass, A. M. Opsahl, Deerwood sends John Oberg, Frank Oberg, H. J. Ernster, H. J. Hage, Wilson Bradley, Paul Hale, Jas. T. Hale, Culver Adams, Salisbury Adams, F. W. Keating, T. F. Cole and E. A. Lamb. H. J. Kruse, of the Rogers-Brown Ore company and Supt. Cram, of the Inland Steel company will go from Crosby. John Hill and others will go from Ironton. Others from Duluth and nearby towns will also attend.

Invitations are not being extended, for it is but natural that every Northern Minnesota citizen will want to protect himself and his community and will want to be present to argue for his rights. It is hoped that many more will join the present delegation.

MUSIC AND DRAMA

At The Empress

The feature picture at the Empress tonight is the "Indian Uprising at Santa Fe."

The enterprising board of trade of Santa Fe, New Mexico, wishing to commemorate the most important event in the history of that famous city, interested the Kalem company in sending a special company to that place and producing in a thorough and artistic manner the stirring events of 1680 and 1692. This production, which abounds with sensational episodes, presents the largest body of genuine Indians ever assembled for a motion picture, and the grandeur of the Santa Fe scenery offers a striking background.

Two screamingly funny Biograph pictures, "A Limited Divorce," and "Like The Cat They Came Back" will be shown. "The Caprice of a King" is a hand colored film of French history.

Mrs. Walter Kuntz last evening was awarded the set of Japanese pottery.

Manager H. T. Laymon, while at St. Paul attending the convention of the motion exhibitors league, grasped the opportunity to engage a new singer for the Empress, Arthur White, direct from the Mandarin cafe of St. Paul, a charming ballad singer and cabaret performer of real ability, who opens his engagement at the Empress on Sunday night.

Obrecht Stock Company

"Caprice," a rural comedy in four acts was presented by the Obrecht Stock company last evening. Leif A. Berger taking the leading part. The show pleased the audience which was most liberal with its applause. The vaudeville numbers were given by the Misses Nell and Jule Obrecht.

The diamond ring was given to Mrs. F. C. Peterson.

Tonight, "The Time, Place and the Man" will be presented with Christy Obrecht taking a character comedy part. Another diamond ring is to be given away at this performance.

ELEVEN CARS IN THE DITCH

Special to Dispatch:—

Deerwood, Minn., January 30th—Eleven cars of an extra freight bound for Brainerd were derailed east of this point this morning, delaying the traffic for some time. No one was hurt or killed.

DEATH OF PIONEER RESIDENT

Thomas Halladay Resident of Brainerd for 32 Years, Passed Away Early This Morning

Thomas Halladay, aged 65, of 516 Northeast Oak street, for 32 years a resident of Brainerd, passed away at seven o'clock this morning at a local hospital, death being due to cancer, from which he had suffered for a year and for which he had been treated six months at the hospital.

He was born in Warwickshire, England, in 1847, and was married there in 1881 to Miss Mary R. Emerson. Shortly after Mr. and Mrs. Halladay emigrated to America, coming directly to Brainerd where he had made his home since then and where he had been continuously employed by the Northern Pacific railway at the local shops. For the last 17 years he had been the foreman of the water supply of the company. He was prominent in fraternal circles and held membership in the A. O. U. W. and Knights of Pythias lodges. For several years he had been a vestryman in St. Paul's Episcopal church. He also participated in civic matters and was for several terms a member of the local school board.

He leaves a wife and six children; A. J. Halladay, of Devils Lake, N. D.; Frank C. Halladay, of Bay City, Texas; C. Vernon Halladay, of St. Paul; Archie Halladay, Leslie Halladay and Miss Marion Halladay, of Brainerd. One brother, George Halladay, resides in Brainerd and a brother and sister live in England.

The funeral arrangements cannot be announced until all the relatives are communicated with, but it is thought the funeral will be either Saturday or Sunday afternoon.

The sympathy of their friends is extended to the family in its sad bereavement.

PROF. J. S. YOUNG SPEAKS IN BRAINERD

Lectures February 3 at Commercial Club on "The Greater Community Fraternism"

EVERYBODY INVITED TO ATTEND

Sunday Evening, February 2 He Will Speak on "The Socialized Church" at First Methodist Church

The Commercial club announces that Prof. J. S. Young, of the department of political science of the university of Minnesota, will give a public lecture Monday evening, February 3rd, in the rooms of the Commercial club on "The Greater Community Fraternism." Everybody is invited to attend.

On Sunday evening Prof. Young will give a lecture at the M. E. church. It is planned to have a union service that evening of the nearby churches. The subject will probably be "The Socialized Church."

On Monday afternoon Prof. Young will address the students of the high school. Prof. Young will be remembered as one of the speakers who was in Brainerd last June during the university's "Chautauqua Week" and at a noonday luncheon in the Commercial club rooms addressed the business men on the subject "Commission Form of Government." He is an entertaining, forceful and ready speaker, and has given addresses on the above subject in numerous places in the state.

WATER AND LIGHT BOARD

Has its Regular Monthly Meeting Last Evening—Routine Business is Transacted

The water and light board held its regular monthly meeting last evening and all the members were present.

A communication was received from City Attorney M. E. Ryan reading as follows: "I again take pleasure in herewith handing you my check for \$5 which represents statutory costs taxed in the case of Bessie E. Graham, et al, vs. the water and light board, which was recently dismissed by the plaintiffs. I presume you still have the account open for the reception of such donations."

A number of routine bills were allowed and ordered paid.

The report of the city electrician was read, accepted and placed on file.

The monthly requisition was allowed and purchases were ordered made in the usual way.

BARRON WILL APPEAL CASE

Court Refused to Read His Demurrer or Grant a Hearing—Contempt Case to Supreme Court

The St. Cloud Times of Wednesday says: "Attorney W. W. Barron, of Brainerd, was in the city yesterday afternoon and evening, on his return from Albany to his home. In speaking of the contempt proceedings brought against him by Judge of Probate E. P. Shaw, of Little Falls, and the imposition of a fine of \$25 by the Morrison county judge, Mr. Barron stated that he will appeal the case to the supreme court.

"The Morrison county court refused to read his demurrer or grant a hearing, according to Mr. Barron. The judge apparently had made up his mind when the Brainerd attorney appeared in his court and did not hesitate to inform the Brainerd barrister that arguments were useless. "The proceedings appear to have been decidedly arbitrary."

Smooth Individual Who Advertised Cheap Fruit Fully Identified—\$9,000 Returned to People

The people in the northwest who were swindled by the advertisement of a smooth individual in which he offered apples and other fruit at a low figure will be interested in the following clipping from the Niles City, Mich., Sun: "Three Benton Harborites, H. A. Foeltzer, A. Lewis, Western Union operator, and Clarence Shaver, stamp clerk of the post office, while at Grand Rapids identified the man who conducted the fraudulent Northwestern Growers' association in that city early in the fall as James E. Sutton.

"By the aid of this identification the government hopes to clinch the case against Sutton for using the mails to defraud.

"Sutton's scheme, that of advertising to ship fruit at low prices and then pocketing the money when it came through the mails and not sending the fruit, netted him about \$900 before he was exposed.

"It is said that nearly \$9,000 was returned to persons in the northwest who were caught in Sutton's net.

VISIONS OF THE SOO

The St. Cloud Times evidently thinks Brainerd is seeing things from the following extract: "Brainerd sees visions of the Soo line entering that city. The Soo, however, has never in the past shown any marked desire to include already established cities in their route for the real estate dealers there have already done their work."

The victims, including fugitives, are said already greatly to exceed 500,000. FATHER BEAR ATTACKS CUBS.

Mother Fights Her Mate In Defense at New York Zoo.

For the first time since the institution of the menagerie in Central park, New York, the population of animals has been increased by the birth of two black bears. Both are males, and their parents are Rose and Bob.

Keeper Cunningham, attracted by a commotion in the bear pit recently, arrived at a most opportune moment for the cubs, for Bob, with evident intent to kill them, was rushing upon the babies. Rose turned and met the father, and for a time the two engaged in a fierce encounter. Cunningham called the other keepers, and they separated the fighting bears, and removed the mended cubs from the cage.

The babies were taken to the hay loft and will be fed there on a bottle until weaned. Park Commissioner Charles Stover will name the newcomers with due ceremony in proper time.

Vine Grower Near Paris Is Enriched by Odd Find.

A vine grower of Marmery, near Paris, while digging up his garden recently turned up a beautiful granite vase containing eighteen gold, eighty silver and twenty-two copper coins.

Some of these had the date of Charles VIII., 1484; others Louis XII. of 1500, Francis I., 1515, and still others Henry VIII. and Edward VI. of England. There were many others of great historic value.

JUDGING A MAN.

There is nothing that needs so much patience as just judgment of a man or even of one act of a man. We ought to know his education, the circumstances of his life, the friends he has made or lost, the motives which filled the act, the health he had at the time, the books he was reading, the temptations of his youth. We ought to have the knowledge of God to judge justly, and God is the only judge of a man.—Stopford Brooke.

Explosive Rock.

The danger of explosion in mines is not entirely confined to inflammable gases, carelessly managed fuses and neglected charges or cartridges. It has been observed that in lead mines some of the slate rocks are likely to burst on being scratched with a pick. The explosion is supposed to be due either to gases inclosed in the rocks or to molecular strains. Not long ago a severe explosion of slate rock occurred in a mine at Hillgrove, New South Wales, and the shock was felt for a mile or two over the surrounding country. In this instance it is believed that the rock wall where the explosion occurred was subjected to a mechanical strain.—Chicago Record-Herald.

PITTSBURGH HAS BIG FLOOD LOSS

Exciting Scenes Occur In Streets of City.

MANY FAMILIES MAROONED.

Thousands of Men Are Thrown Out of Employment—Boats Used on Important Thoroughfares—Boys Use Rafts—Rescues Occur—Wheeling and Cincinnati Also Affected.

Pittsburgh recently suffered millions of dollars damage as the result of the greatest flood in the past forty-seven years of its history. Thousands of men and women have been thrown out of employment, homes have been inundated and wrecked, and altogether great suffering in many directions has been the result. Excessive rains in the mountains, swelling the rivers, caused the flood.

Interspersing the details and incidents of hardship many ludicrous reports relating to the fun that accompanied the high water's rush upon the city have been made. Pittsburgh citizens, like the dwellers in other great cities where disasters have come, are possessed of hopeful qualities. They make the best of their misfortunes.

Rowboats Used In Streets.

For instance, when the water began to sweep down their main streets the people merely hauled out all the old rowboats they could get and became able-bodied seamen. Many Venetian scenes have been pictured by the camera at different points about the city.

The flood also swept down with a certain degree of damage upon McKees Rocks, Wheeling, East Liverpool and Cincinnati.

About 20,000 schoolbooks, most of them in excellent condition, purchased by the taxpayers of Pittsburgh for the education of their children at a cost of from \$10,000 to \$15,000, practically were ruined and were all afloat in the basement of a public school.

The boxes containing these valuable volumes are very big and heavy, so they were not exactly tumbling around like educational houseboats, but they were "getting theirs" just the same.

Loose books in scores dotted the rippling, still rising pool. Several of the smaller boxes rose to the occasion and the surface and meandered slowly about among the gigantic specimens in whose company they have been off the job so long, as though sightseeing.

Thrilling Rescues.

Conditions in nearby boroughs were about the same as in Pittsburgh. Two thrilling rescues were made at the small bridge which crosses Street's run, connecting Hays borough with Homestead. But for the timely arrival of employees of the Second avenue division of the Pittsburgh Railways company these two persons probably would have been drowned. Street cars from Hays borough could not cross the bridge, as the water of the creek was two feet over the walk of the bridge. The two persons who fell in were trying to follow the example of hundreds of persons who were walking across the railing of the bridge.

The first to receive a cold plunge was Tony Villa of Rand Station. He fell into the water, but managed to hang on to the girder of the bridge, where he was rescued by street car men. Miss Nellie Allen, aged sixteen, of Hays, attempted to cross the bridge in a similar manner, and she also took a cold plunge. Friends rescued her.

Fearing that lives might be lost by persons trying to cross the bridge, the railways company secured a large wagon, drawn by four horses, and carted the people across the flooded bridge.

School Closed—Boys Use Rafts.

At Millvale there were no sessions in the first ward school for a few days, as the building was entirely surrounded by water, and it was impossible to get the pupils and the teachers to the building. The children didn't seem to mind it in the least, as many of the boys improvised rafts and enjoyed themselves by paddling around the school building.

With over 1,400 men thrown out of employment and many business houses and homes inundated, the flood in Etna and Sharpsburg exacted heavy toll. Several hundred families were marooned in their homes, the water about them ranging in depth from several inches to four feet. Business in both of the boroughs was at a standstill.

There was considerable suffering among the flood victims. Many families were confined to their homes, completely surrounded by water, with but a scant food supply, while some, were without any fires, the supply of coal and wood, which was laid in when the water began to rise, becoming exhausted. The gas supply was low, and some of the portions of the towns were without any.

Street car service in both Sharpsburg and Etna was badly crippled.

Residents of Etna are suffering most. Hundreds of homes in low districts were flooded, the families being forced to the second stories of their homes. The high stage in the Allegheny river caused Pine creek to overflow its banks. Slowly the waters began to rise. The people had sufficient warning of the approaching stage to remove their household goods. Cherry and Sycamore streets were all under water, and the homes in these districts were all flooded.

The Real Reason.

"She didn't mourn him. She was mourning because she doesn't look well in black."—Baltimore American

Catches Silver Fox In Connecticut.

The year 1912 was notable for the large number of benefactions for educational and philanthropic purposes. The total benefactions, accruing from amounts of \$10,000 up, were approximately \$302,000,000. It is probable that the sum of the lesser donations would reach about \$25,000,000, making \$327,000,000 in all. These figures exceed the preceding year by \$152,000,000.

Educational works were the most popular channel for the distribution of this money. Hospitals and the care of the aged came next, with gifts for religious enterprises a close third. Besides the known amounts, there were innumerable donations by persons whose identity was not disclosed or disclosed to only a few.

In England during 1912 the benefactions aggregated only about \$20,000,000.

The American benefactions would more than pay for a year's maintenance of the army and navy. The aggregate is more than the capital of the Bank of England or of the Imperial Bank of Germany and exceeds the amount of money in the treasury in New York.

During the past twelve years \$1,502,000,000 has been given away in this country, which if distributed to all the inhabitants of the earth would be 92 cents for each individual, or it would supply \$16.33 to each inhabitant of continental United States.

Carnegie Benefactions.

Andrew Carnegie leads among the givers, although the actual disbursements of his wealth are not all shown in items for 1912. He announced that he had placed all of his fortune except \$25,000,000 in the Carnegie Corporation of New York. Other donations made by Mr. Carnegie ran to more than 1,000 separate items, which would total over \$10,000,000. Among the larger sums were \$2,000,000 to the Carnegie Foundation for the Advancement of Teaching, an endowment fund (not yet accepted) for future retired presidents of the United States, which would allow them \$25,000 a year each; \$2,000,000 to the Carnegie Technical schools for the establishment of a school for fine arts; \$100,000 to Yale Forest school; \$75,000 for a library in the northern section of New York city; \$50,000 to the University of Denver; \$50,000 to the University of Vermont; \$25,000 to the Western College of Ohio; \$20,000 to Albion college; \$18,000 to Wells college to complete its library; \$15,000 to Shurtz college for a library, etc.

J. P. Morgan's Gifts.

The gift of J. P. Morgan of art treasures valued at about \$50,000,000 was made to the Metropolitan Museum of Art on condition that an addition to the museum should be built for housing them. In addition, a large sum was paid to have them brought to this country. This large donation, coupled with his other benefactions, makes Mr. Morgan one of the leaders among the givers of the year. His other gifts included \$200,000 to the Trinity college for a library; \$100,000 to the Peabody College for Teachers; \$100,000 to the general convention of the Protestant Episcopal church and \$50,000 each to the University of Gottingen, in Germany; the London Y. M. C. A. and a fund to build a hotel for sailors.

The Bell Telephone company announced the establishment of a \$10,000,000 pension fund for employees who have been in its service for more than a year.

John D. Rockefeller has fallen off considerably in the matter of giving during the past year. In 1910 his gifts totaled \$17,000,000 and in 1911 about \$5,000,000. In the last twelve months the amount of his known benefactions was about \$3,000,000.

The Pirates.
Old Blackbeard and his buccaneers who sailed the Spanish main And grim Lafitte and Morgan, too, Have come to life again. They're cruising up and down Broadway In cabs and motorcars And wearing coats of costly fur And smoking big cigars.

They've hauled the Jolly Roger down The dollar mark to play And armed themselves with worthless shares And dividends that lie. They strip a corporation bare, And wreck and sink a bank, And make a life in the good old days, The victims fall the plank.

Though some of them have studied law Or entered politics And some in gilded offices Pursue their wicked tricks, I know them for the savage souls That scattered blood and flame From Holyhead to Panama. They're pirates just the same. —New York American.

CHINESE FLIER MAKES GOOD.

Bird Man From the Orient Noted For His Daring Feats in the Air.

Tom Gunn is one of the first Chinese to take up the science of aviation. Around San Francisco he is known as a daring bird man, and his feats are said to be as spectacular as those of Lincoln Beachey. Like Beachey, Gunn flies a biplane.

At fairs and at the various California beaches Gunn and his biplane are known to thousands. He has never performed, however, east of the Rocky mountains.

New Gas Discovered.

Sir Joseph John Thomson, director of the Cavendish laboratories at Cambridge, England, announced recently that he had discovered a new gas. It holds the same relationship to hydrogen that ozone does to oxygen, which means that the chemical formula is H3. He found this curious form of hydrogen hidden away in metals, especially iron, zinc, copper and lead.
